Portfolio: orlandocastillo.vercel.app | GitHub: github.com/orlandocastillo-dev

PROFESSIONAL PROFILE

Systems Engineering student who builds complete web applications and publishes them for anyone to use: interface, database, user accounts, security and testing. I work with React, TypeScript, Supabase and AWS. I built the production software REG Marketing uses every day, and I have seven applications of my own online, including a serverless booking system on AWS and a machine learning project that recognizes the sign language alphabet. I also have experience in customer service in English and Spanish for international companies (English B2+). Responsible, organized and a fast learner.

EDUCATION

Systems Engineering *2024 – Present*
Universidad de la Costa (CUC), Barranquilla, Colombia

English Program, Level 6 (Completed)
Universidad del Atlántico

High School Diploma with Emphasis in Pedagogy *December 2023*
Escuela Normal Superior del Distrito de Barranquilla

WORK EXPERIENCE

Sutherland: Remitly · Customer Service Representative *July 2026 – October 2026*
- Customer service in English and Spanish for questions about international transfers and transactions.
- Resolved issues and followed up on cases related to money transfers.
- Verified customer information and followed security protocols on every case.

Soft G Net · Customer Service (Centrum Health account) *Feb 2026 – Jul 2026*
- Inbound customer service for Centrum Health: answered questions and supported patients.
- Outbound calls for proactive follow-up and scheduling medical appointments.
- Handled confidential patient information with discretion and professionalism.

REG Marketing SAS *July 2025 – January 2026*
- Managed and tracked orders through the production process.
- Coordinated with other areas to meet delivery deadlines.
- Operated specialized machinery (laser cutting and sublimation).
- Built the internal production web app (HTML, CSS, JavaScript and Supabase), which the company still uses.
- Solved day-to-day operational issues.

FEATURED PROJECTS

Production Software · REG Marketing SAS *2025 – 2026*
Internal application in daily use at the plant (private)
- Designed and built the web app that tracks every order through each production stage, in real time between the office and the plant.
- Version 2 (2026): stopped two tablets from overwriting each other's progress, fixed order editing, and added filters, charts, monthly reports and PDF orders.
- Technologies: HTML, CSS, JavaScript and Supabase (PostgreSQL).

Cupo · Online booking on AWS *2025 – 2026*
cupo-projectos5.vercel.app · code on GitHub
- Booking for barbershops and clinics with no double bookings: each appointment claims its 15-minute slots in a single DynamoDB transaction with conditional writes.
- Serverless backend: Lambda behind API Gateway with a JWT authorizer, owner accounts with Cognito, and email reminders with EventBridge and SES.
- Infrastructure as code with AWS CDK. Next.js and TypeScript, tested with Vitest and Playwright, deployed with GitHub Actions.

Alfabeto LSC · Sign language alphabet recognition with machine learning *2025 – 2026*
alfabeto-lsc.vercel.app · code on GitHub

- Recognizes the letters of the Colombian Sign Language alphabet through the camera and lets you spell words; the video never leaves the device.
- Collected my own dataset: hand landmarks from MediaPipe, stored in Supabase with no images or video.
- Neural network trained in Python with scikit-learn: 94% accuracy on recordings not seen during training. The model runs in the browser with React and TypeScript.

Qadre · Personal finance *2025 – 2026*
qadre-app.vercel.app · code on GitHub

- Budgets, savings goals, bank statement import and recommendations based on each user's history.
- Supabase accounts: each user's data protected by database security rules (RLS), lockout after failed attempts, and a privacy policy under Colombian data protection law (Ley 1581).
- React, TypeScript, Redux Toolkit, RTK Query and Vitest.

Surti2 · Point of sale for neighborhood stores *2025 – 2026*
surti2.vercel.app · code on GitHub

- Sales, inventory, store credit and cash register from a phone. Works offline and syncs several devices without losing sales.
- Owner and seller roles enforced in the database; sellers created through an Edge Function. Installable as an app (PWA).
- React, TypeScript, Redux Toolkit and Supabase.

MesaTI · IT help desk *2025 – 2026*
mesa-ti-chi.vercel.app · code on GitHub

- Tickets with employee and technician roles, priorities, resolution deadlines (SLA) and real-time metrics.
- Knowledge base with step-by-step guides and PowerShell scripts; TypeScript, Vite and Supabase Realtime.

Traste · Lyrics and chords for guitar players *2025 – 2026*
traste-nine.vercel.app · code on GitHub

- Pulls a song's lyrics from its YouTube link, lets you add chords, change the key and work out the capo. React, Redux Toolkit and SVG.

Taller Rodada · Website for a bike repair shop *2025 – 2026*
taller-rodada.vercel.app · code on GitHub

- Price quotes and appointment booking validated on the server, with WhatsApp confirmation. Next.js, TypeScript, Tailwind CSS and Zod.

diagnostica · Computer diagnostics *2025 – 2026*
code on GitHub

- Command-line tool in Node.js and TypeScript that checks a computer (CPU, memory, disks and network) and writes a report for the support ticket.

TECHNICAL SKILLS

Web development: React · TypeScript · JavaScript · Redux Toolkit · Next.js · HTML · CSS · Tailwind CSS
Data and backend: Supabase (PostgreSQL, Auth, RLS, Edge Functions) · Node.js · REST APIs · Zod · PWA
Cloud (AWS): Lambda · API Gateway · DynamoDB · Cognito · S3 · CloudFront · EventBridge · CDK
Machine learning: Python · scikit-learn · NumPy · MediaPipe
Testing and delivery: Vitest · Playwright · Testing Library · Git and GitHub · GitHub Actions · Vercel
IT support: Windows · Basic networking · PowerShell · Help desk and SLA · Microsoft Office

LANGUAGES

Spanish: Native | English: B2+ (English Program Level 6, Universidad del Atlántico, completed)

KEY STRENGTHS

Problem solving · Working under pressure · Organization and time management · Adaptability and fast learning · Clear communication
